

# HYDROFLASH® UV+

ENHANCED ADHESION FOR EXTREME CONDITIONS

12 Month UV exposure before cladding installation

25 year Open Joint System warranty when used with InisiWrap UV

AAMA 711 approved, meets criteria of AC 148

**HydroFlash® UV+** is formulated with an aggressive acrylic adhesive for extreme environmental conditions for use with all of Benjamin Obdyke housewraps. HydroFlash UV+ can be used in Open Joint Cladding systems with a 12 month UV rating before siding installation. Taping of Benjamin Obdyke housewrap seams is not required, but if you must tape, use HydroFlash UV+ 2.3 inch seam tape.
