**HYDROGAP® DRAINABLE HOUSEWRAP:
INSTALLATION UNDER METAL CLADDING**

This message is to address the approved cladding to be used with HydroGap® Drainable Housewrap.

HydroGap® Drainable Housewrap is approved for use with metal panel cladding. HydroGap® Drainable Housewrap is a tri-laminate, nonwoven housewrap approved for use as a weather resistive barrier and air barrier.

Additionally, HydroGap® Drainable Housewrap will provide a 1mm space between the substrate of the housewrap and the cladding. This space will provide for drainage behind the panels for water infiltration. HydroGap® housewrap is approved for temperatures up to 250°F.
