

InvisiWrap® UV

WRB WITH ENHANCED UV RESISTANCE

InvisiWrap® UV is a UV-resistant weather-resistive barrier engineered for open-joint cladding applications and projects requiring extended UV exposure before cladding installation. Offering up to 12 months of UV protection, its premium black finish, vapor permeability, and reliable moisture management support long-term wall assembly durability and performance.

UV Rated for 365 days before cladding installation

Approved for use in Open Joint Cladding Assemblies
with openings up to 1 in when installed with Batten UV

Superior tear strength and water hold out

True all-black WRB with no print on the membrane

WIDTH	4.92 ft (1.5 m)
LENGTH PER ROLL	100 ft (30.48 m)
MAX. UV EXPOSURE	365 Days
VAPOR PERMEABILITY	14 Perms
FIRE RATING	Class A
