

CEDAR BREATHER®

ROOF VENTILATION MAT

Cedar Breather® is a high-performance roof ventilation mat designed to promote continuous airflow, drainage, and drying beneath cedar shakes, wood shingles, and select metal roofing systems. Its patented three-dimensional matrix helps prevent trapped moisture, reducing the risk of rot, cupping, and warping while extending the life of the roof. Lightweight and easy to install, Cedar Breather® eliminates the need for traditional furring strips while supporting long-term roof performance.

Patented three-dimensional matrix allows for continuous airflow and prevents thermal cupping and warping

Protects the beauty and life of wood woofing by reducing rot and eliminating moisture

Great solution for use in metal roofing applications providing durable performance and sound cushioning

Quick and easy installation without special tools or furring strips

Provides sound cushioning in metal roof applications

THICKNESS (Size of Gap)	0.285 in (7.24 mm)
WIDTH	39.37 in (1 m)
LENGTH PER ROLL	61.5 ft (18.75 m)
COVERAGE PER ROLL	200 ft ² (18.75 m ²)
MAX. UV EXPOSURE	30 Days
FIRE RATING	Class A
