

VAPOR DRY® SA

VAPOR PERMEABLE SELF-ADHERED ROOF UNDERLAYMENT

VaporDry® SA is a vapor-permeable, self-adhered roof underlayment that combines 100% continuous acrylic adhesive with advanced moisture protection to help prevent water intrusion while maximizing roof drying potential. Designed for full-roof applications, its repositionable adhesive simplifies installation while providing dependable weather protection and supporting long-term durability of the roof.

Vapor-permeable, self-adhered roofing membrane
reduces potential of damage due to moisture build-up

100% continuous acrylic adhesive technology is repositionable during install and self-seals around roofing fasteners

Slip-resistant surface & printed overlap guides for an easier install

250°F service temperature helps maintain performance in demanding roofing applications, including high-heat roof coverings

Approved for all roofing types with roof pitches of 3:12 or greater

WIDTH	4.75 ft (1.45 m)
LENGTH PER ROLL	80 ft (24.38 m)
MAX. UV EXPOSURE	120 Days
VAPOR PERMEABILITY	14 Perms
ADHESION	Continuous Acrylic
FIRE RATING	Class A
SERVICE TEMPERATURE	Up To 250°F
